

As a leader in the medical device industry, Strukmyer Medical now offers sterile and non-sterile compounding services with a dedicated space registered with the FDA as a 503b outsourcing facility. With over 30 years of experience in delivering quality products following cGMP and ISO 13485:2016, our team is well equipped to handle the complex production challenges associated with sterile compounding and manufacturing for office use. Strukmyer's outsourcing facility begins with the patient in mind following strict guidelines to ensure the sterility, purity, and potency of all products released for distribution.

Services we offer:

- Sterile syringes and vials
- Backorder medications compounding
- Sterile product repackaging
- Clinical trial manufacturing and kitting
- Pellet manufacturing
