

### Wound Wash

pH Balanced  
Non-Toxic

Specially formulated to effectively remove organic material, slough, blood clots, other wound debris, and dead tissues without disrupting the wound bed as it works to improve your natural recovery process. Applying this cleanser onto your skin is easy and painless. It is a mild, non-irritating saline wound wash that is great for treating minor and sensitive wounds. No rinsing is required. While our anti-fungal cleanser will clean already existing wounds, it promotes healthier skin to protect the body from future infections. It is pH balanced so it keeps the skin stable without over moisturizing or drying out.
